EasyShades®

EXTERIOR SOLAR SHADES

Block the heat, not the view. Sunlight can heat up your home and cause annoying sun glare. EasyShades stop heat and glare before they enter your living space—without obstructing the view! These innovative solar shades work on the outside of your home, keeping 85% of sunlight out for a cooler, more comfortable indoor space—all while reducing cooling costs. EasyShades even keep carpets and furniture safe from fading. Discover the protective power of EasyShades!

**IT'S EASY TO MEASURE
FOR AN EASYSHADE.**

EasyShades®

EXTERIOR SOLAR SHADES

Three Easy Options

EasyShades are available in motorized, solar-powered, and manual configurations. All three are maintenance-free, easy to operate, and roll up perfectly straight every time. That means no tangles or uneven slats like interior blinds.

Motorized

Our Motorized EasyShade® simply plugs into any outdoor outlet. You choose if you want the electrical cord on the right or left end of your solar screen.

- Operate with a simple, one-touch remote control
- Unrolls up to 7 feet—or anywhere in between
- The ultimate in ease and convenience
- Heat-blocking fabrics reduce energy costs

Solar-Powered

The top-selling Solar-Powered EasyShade requires no electricity.

- Operate with a simple, one-touch remote control
- Works anywhere on your home
- Ideal for upper story windows
- No electrical outlet necessary

Manual

These solar shades come with a simple-to-use hand crank and do not require electricity.

- Same great EasyShades sun protection
- Retracts securely into protective aluminum housing
- The ultimate in simplicity

5 YEAR

Limited Warranty

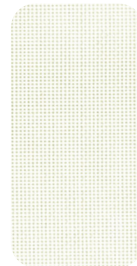

EasyShades® Fabric Choices

EasyShades aren't just energy-efficient and practical—they're beautiful.

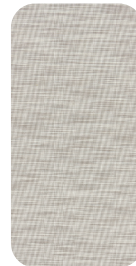

Our EasyShade fabric collection was chosen to provide both protection and an attractive appearance. Choose from seven different fabrics for years of reliable performance.

- Block 85% of sun, wind, and mist
- Open weave provides sun protection while maintaining your view to the outdoors
- Durable vinyl-coated polyester
- Heat-blocking fabrics reduce energy costs

BRING THE COMFORT OF INDOORS OUTSIDE

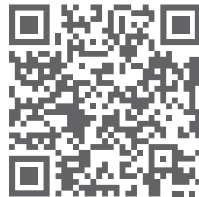

Retractable Screens

ENJOY PROTECTION FROM SUN, WIND, AND INSECTS

SAVE \$200!

To get started with your
EasyScreen project,
scan this code:

What are retractable screens?

Retractable screens are installed on porches, covered patios, or any other outdoor space to provide privacy and protection from sun, wind, or insects. These innovative screen designs are easy to operate, open and close in seconds, and can be fully customized to fit your space.

Two great screen options:

Zipper Track

Enjoy shade, privacy, and insect-protection with our Zipper Track Screen Systems. Our best retractable screen system features commercial-design inspired zip-retention side channels that seal the retractable screen to your home to protect you from the elements and create an insect-proof space while still allowing airflow.

Cable-Guided

Our Cable-Guided Screen System is an economical choice, designed to offer sun protection, privacy, and wind protection. This model is ideal if the architectural design of your home doesn't allow for the installation of side tracks and a complete enclosure isn't necessary.

Zipper Track
